# FLY CONTROL RANGE

## SureFire FlyStar bait control adult houseflies

- ◆ Contains 5g/kg IMIDACLOPRID & 1g/kg (Z)-9-TRICOSENE as the active ingredients.
- ◆ Ready -to-use fly bait granules for the control of adult houseflies and lesser houseflies.
- ◆ Suitable for scattering, or wet-baiting or as a paint-on application.
- ◆ Use outside abattoirs, animal housing, garbage containers, food processing plants and other industrial and commercial areas, & around industrial sites, feedlot manure heaps, garbage dumps, AND inside in areas inaccessible to livestock.
- ◆ Highly effective, quick action, residual activity and long treatment intervals.
- ◆ Contains Bitrex® bittering agent to help prevent ingestion by animals, children and pets.
- ◆ Re-baiting may be necessary in 3 - 5 days depending on exposure, weather and fly density.
- ◆ Product available in 500g and 2Kg resealable plastic bottles.

## ALODEX Fly Larvicide stop maggots & flies

- ◆ A granular formulation larvicide, stops fly larvae from developing into flies— break the fly lifecycle by preventing the ability of the maggots to produce chitin.
- ◆ Suitable for scattering, or dissolving and pouring with watering can or spraying.
- ◆ Suitable for use in poultry farms (conventional layer, high rise or controlled environment), piggeries, dairy and calf units, cattle in feedlots or rearing pens & horse stables (either dry or wet manure).
- ◆ Highly effective, quick action, residual activity and long treatment intervals.
- ◆ No damage to beneficial organisms.
- ◆ Contains 20g/Kg CYROMAZINE as the active ingredient.

NOTE: Use only on fly breeding areas (not resting areas), ALODEX has no effect on adult flies. Animals can remain in buildings being treated provided care is taken to ensure that ALODEX is not applied directly to the animals.

## SureFire Fly Magnet bottle 2 litre attract & trap flies

- ◆ Safe around children, pets and the environment — trap without using poisons.
- ◆ Entice flies readily into the trap using either the highly attractive bait.
- ◆ Trap flies in the bottle with a one-way entry port at the top of the bottle.
- ◆ Supplied with a starter pack of powdered attractant.
- ◆ Best results are obtained when the traps are placed 60cm or less from the ground.
- ◆ Traps are reusable after thorough cleaning with hot water.
- ◆ Note that the traps effectiveness will be determined by conditions such as heat, humidity, light and location.
- ◆ Suitable for all common fly species.
