

COCKROACH GEL BAIT
InVict

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

PRECAUTION: Should not be used in areas accessible to children.

PROTECTION OF LIVESTOCK, WILDLIFE AND OTHERS

Dangerous to fish. DO NOT contaminate streams, rivers or waterways with the chemical or used containers. DO NOT place baits in locations which are accessible to domestic animals, livestock or birds.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight.

Do not dispose of undiluted chemicals on site. Dispose of used containers at a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Poisonous if swallowed. May irritate the eyes and skin. Avoid contact with eyes and skin. Wash hands after use.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre. Phone Australia 131126. If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet.

DISCLAIMER

InVict Cockroach Gel Bait is supplied as a high grade product and is suitable for the purpose which it is expressly intended and must be used in accordance with the directions for use. The user must monitor the performance of any product as climatic, geographical or biological variables may affect the results obtained. No responsibility is accepted in respect of this product, save for those non-excludable conditions implied by the Trade Practices Act or any relevant State legislation.

DIRECTIONS FOR USE:

DO NOT apply to a ground surface which is wet or to areas that are washed.

DO NOT allow product to directly contact humans, pets, exposed food, food preparation areas or food utensils.

SITUATION: Commercial, Industrial and Residential Buildings.

PEST: German and American Cockroaches.

RATE: Apply as a 3 mm to 6 mm diameter bait spot. Use the larger bait spot for American cockroaches. Apply 12-24 bait spots for 30m² treatment area for heavy infestations and 4-6 bait spots for 30m² treatment area for light infestations.

Inspect premises thoroughly and locate all cockroach harbourages.

Place InVict bait spots as close as possible to cockroach harbourages.

Place bait spots into cracks and crevices away from where they are likely to be removed by cleaning programs.

When placing baits remember that the label refers to the full surface area that the cockroaches are likely to traverse e.g. in a kitchen allow for the full surface area of each bench, cupboard etc.

Good hygiene is essential in any pest management situation. Encourage the removal of other food materials.

Do not use chemical sprays near baits.

In areas of poor sanitation use more bait placements.

RETREATMENT:

In areas of high activity the bait may be consumed and further placements needed. Schedule a second inspection about a month after the initial treatment. Retreatments only need to be applied in areas where cockroaches remain or are likely to enter a premises. InVict is very stable; it does not harden or lose its attractiveness to cockroaches. Only reapply baits when the original bait has been consumed.
